“Base Displacement” since 1898

Bases and other military facilities whose creation or expansion displaced locals outside U.S. states. During the 18th and 19th centuries, bases in North America also helped enable the displacement, dispossession, and deaths of millions of Native Americans.

In 2020, the United States controlled around 800 bases outside the 50 U.S. states and Washington, DC. Map reflects bases' relative number and positioning given best available data. For ease of comparison we use contemporary borders and a Mercator projection.
